ALTAIR INTERNATIONAL CORP.
Notes to the Financial Statements
September 30, 2019
(Unaudited)

The results for the six months ended September 30, 2019 are not necessarily indicative of the results of operations for the full year. These financial statements and related footnotes should be read in conjunction with the financial statements and footnotes thereto included in the Company's Annual Report on Form 10K for the year ended March 31, 2019, filed with the Securities and Exchange Commission.

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at September 30, 2019 and for the related periods presented have been made.

NOTE 1 - ORGANIZATION AND BUSINESS OPERATIONS

Organization and Description of Business

ALTAIR INTERNATIONAL CORP. (the "Company") was incorporated under the laws of the State of Nevada on December 20, 2012. The Company's physical address is 18934 N 92nd Way, Scottsdale, AZ 85255. The Company is in the development stage as defined under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 915-205 "Development-Stage Entities."

The Company is currently engaged in identifying and assessing new business opportunities.

The Company had previously planned to enter into license and distribution agreements for oral thin film nutraceutical products. This plan was abandoned in the 2017 fiscal year as the Company was unable to obtain the working capital required to bring the products to market.

Since inception (December 20, 2012) through September 30, 2019, the Company has not generated any revenue and has accumulated losses of \$897,474.

In management's opinion all adjustments necessary for a fair statement of the results for the interim periods have been made, and that all adjustments have been made to maintain the books in accordance with GAAP. Furthermore, sufficient disclosures have been made in order to ensure that the interim financial statements will not be misleading.

NOTE 2 - GOING CONCERN

The financial statements have been prepared on a going concern basis, which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$897,474 as of September 30, 2019 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or obtaining the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and/or private placement of common stock.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, and pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to fairly present the financial position, results of operations and cash flows of the Company as of and for the six month periods ending September 30, 2019 and 2018 and year ending March 31, 2019.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

The Company's bank accounts are deposited in insured institutions. The funds are insured up to \$250,000. At September 30, 2019 the Company's bank deposits did not exceed the insured amounts.

Basic and Diluted Income (Loss) Per Share

The Company computes loss per share in accordance with "ASC-260", "Earnings per Share" which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of outstanding common shares during the period. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive loss per share excludes all potential common shares if their effect is anti-dilutive.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Fair Value of Financial Instruments

FASB ASC 820 "Fair Value Measurements and Disclosures" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The carrying amounts of financial assets and liabilities, such as cash and accrued liabilities approximate their fair values because of the short maturity of these instruments.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to the prior period financial information to conform to the presentation used in the financial statements for the six month period September 30, 2019.

NOTE 4 – LOAN ADVANCES

On April 10, 2018, the Company entered into a non-binding Memorandum of Understanding with Dr. Judy Pham wherein Dr. Pham agreed to provide up to \$100,000 in equity financing to assist with a corporate reorganization including bringing the Company current in its regulatory filings. On September 26, 2018 Dr. Pham completed her commitment to advance the Company \$100,000. On September 27, 2018, the Company entered into a Securities Purchase Agreement with Dr. Judy Pham whereby she acquired 422,222,670 common shares of the Company for the \$100,000 in loan advances.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

Off-Balance Sheet Arrangements

Future Financings

We will continue to rely on equity sales of our common shares or debt financing arrangements in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund our operations and other activities.

Critical Accounting Policies

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Contractual Obligations

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.
